CHINA ORGAN HARVEST RESEARCH CENTER

Over 1,000,000 transplants performed since 2000

60,000 to 100,000 transplants performed each year

1,000+ hospitals have conducted organ transplants

Directed by the state with military and civilian involvement

China has no functional organ donation system

Most organs taken from unwilling prisoners of conscience, mainly Falun Gong practitioners

Evidence deemed credible by the U.S. Congress and the European Parliament

CHINA'S MEDICAL GENOCIDE

China now performs more organ transplants than any other nation in the world, despite having a limited program for procuring organ donations. Where do these organs come from?

A decade of research by international investigators has revealed that the **Chinese government is systematically killing prisoners of conscience on demand** to feed its vast organ transplant industry.

Patients throughout the world travel to China for organ transplants. The crime has become global in its scope.
